

1to4 Quick start program:

Based on a 12" front drawer height.

Means 2 configurations could be used in a cabinet (one drawer for waste for example and the second for multi-purpose storage or cleaning material).

Always consider the additional height of the stored items.

Always DOUBLE CHECK AVAILABLE INTERIOR DIMENSIONS.

Keep in mind the mat is to cut to size, so one mat can equip more than one drawer

All bins come with lids for a perfect handling!
