Pro Arc

The new generation of Lazy-Susans

Pro-Arc is an innovative series of lazy-susans for corner units. It consists of 2 choices of trays: round and kidney. Each tray is conceived to offer a maximum of storage space and features an integrated contour preventing items from slipping through. The tray surface is covered with an anti-slip coating.

The system is very easy to install requiring a minimum of hardware. Each set includes 2 trays, 1 post and required hardware.

Interior height: from 712 to 777 mm (28" to 30-9/16")
